

The background of the slide features a 3D rendering of several COVID-19 virus particles. These particles are depicted as spherical, grey, textured structures with numerous red, crown-shaped spikes protruding from their surfaces. Some particles also have small yellow circular spots. The particles are scattered across the frame, with some in sharp focus and others blurred, creating a sense of depth. The overall color palette is dominated by the grey of the virus capsids, the bright red of the spikes, and the pale yellow of the smaller spots, set against a light, off-white background.
