# TUBIG PATROL INILUNSA

Maysan Road undergoes rehabilitation as part of the VC 21st program of the City Government.

Bureau of Fire receives bunker suits and handheld radios from the City Government.

## Tubig Patrol Launched

Barely two weeks after it was launched, the Tubig Patrol continues to reap positive responses from Valenzuela residents.

The Tubig Patrol program of the City Government is aimed at making water available in areas with little or no water supply. Part of the program is the rationing of water from Mondays to Saturdays, where six water trucks deliver water in designated areas of Barangays Canumay, Punturin, Bignay, and Lawang Bato in district 1, and Barangays Maysan, Marulas, Ugong and Gen. T. De Leon in district 2. Said areas are not serviced by the MWSI Maynilad.

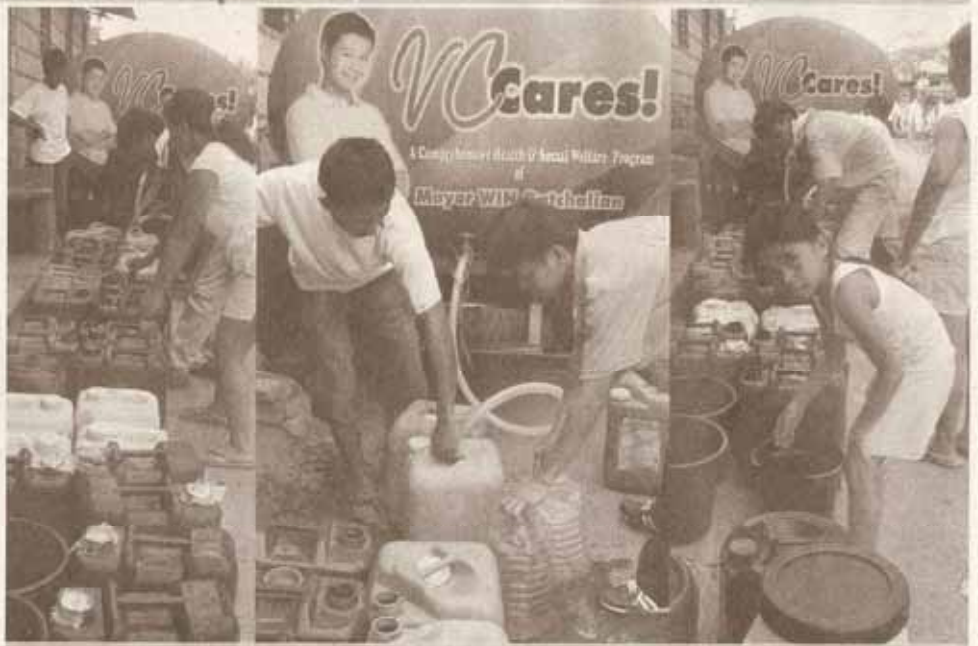

Water tankers make as many as seven (7) rounds per day.

"Supply of water is among the common issues besetting many of our constituents particularly in elevated areas. A lot of them rely on private water delivery, which costs them more as compared to Maynilad. While others get water from deep wells," said Mayor WIN.

Of the 106,382 households (as per NSO Census 2000) in Valenzuela, only 60% are serviced by MWSI-Maynilad in the different barangays except Barangays Bignay, Canumay, Punturin, Lawang Bato, Ugong, Mapulang Lupa, and Wawang Pulo. About 20% rely on water peddlers, while the rest source out water from deep wells and other sources.

Other waterless areas are being rationed upon request at the City Water Management and Services Unit (CWSMU).

"We hope that through the Tubig Patrol, we could at least lessen the burden of our constituents in these areas. There are still other

Residents line their water containers to avail of the free water supply being rationed by the City Water Management and Service Unit.

areas that need water rationing hence we are looking into the possibility of acquiring additional trucks to accommodate these areas," Mayor WIN quipped.

Furthermore, the CWSMU is overseeing the installation of deep wells in Barangays Coloong and Balangkas and rehabilitation of the Dalandan Pumping Station which will be the source of water to be rationed.

The CWSMU is also working, in coordination with Maynilad, for the completion of the MWSI pipe laying in Barangays Tagalog, Paso De Blas, Ugong, Malanday, Isla and Maysan.

"Para sa mga request ng delivery ng tubig, maaari po lamang ay makipag-ugnayan sa CWSMU sa numero bilang 292-0211 loc. 236. Lahat po ng request ay gagawan namin ng iskedyul," said CWSMU Head Vic Esteban.

"While the City Government is doing all it can to minimize the adverse effects of the water problem, I would also like to call on all my fellow Valenzuelanos to help by following simple water conservation measures in their respective homes and business establishments," the Mayor concluded.

## BFP Valenzuela gets support from City Government

After working on the upgrading of the efficiency of the Valenzuela City Police Office in combating crimes, City Mayor Sherwin Gatchalian is focusing its efforts this time on the improvement of the Valenzuela Fire Department.

"We believe that for our firefighters to be able to speedily respond to fire incidents or prevent them from happening, they need the necessary firefighting equipment and facilities. And while our firefighters main concern is to help protect lives and properties, their welfare has to be considered too, especially while they are in action," he said.

The City Government turned-over 80 bunker suits, 21 handheld radios and one (1) blinker. Said equipment amounts to P1.2 million.

"This is just the start of our aim to help improve the efficiency of our Fire Department. We are looking into the possibility of providing them with other necessary equipment and facilities such as additional fire trucks," he added.

Valenzuela Fire Chief Agapito Nacario said that there are only two (2) available fire trucks being used by the Valenzuela Fire Department.

"Naisangguni na rin namin ito kay Mayor, at sabi naman niya ay maghigay ang Pamahalaang Lungsod," Nacario said.

"This is the first time that the Valenzuela Fire Department received firefighting equipment from the City Government. And we are very thankful to Mayor Sherwin for his support," the Local Fire Chief said.

"The ideal ratio of firemen to population is 1:2000, but we have only 140 personnel in Valenzuela with almost 500,000 population. We hope that by providing them with the necessary firefighting equipment, we will be able to augment the limited manpower," added the Local Chief Executive.

From January to October of this month, the Valenzuela Fire Department noted a dramatic drop in fire incidents in the City with only 112 fire incidents, more than 50% lower than the number of incidents of the same period last year.

# Valenzuela opens doors to technology exchange:

## Signs Sisterhood Agreement with Bucheon City, South Korea

Aimed at promoting Valenzuela as an industrial center through a technology exchange program with other vital industrial hubs, the City Government entered into an agreement with the City Government of Bucheon, South Korea as its sister City.

"Opening our doors to advanced cities like Bucheon would usher in new ideas and strategies which we could use in our efforts to further develop our City not just in terms of technologies and industries, but also other areas like arts, culture, sports, and how we could protect our environment, while budging towards industrialization," said City Mayor Sherwin Gatchalian.

"The good thing about Bucheon City is that they were able to protect their environment even if they evolved into an industrialized City," Gatchalian added.

Bucheon is an industrial center in South Korea, known for moviemaking and computer animation. It's City Government has an annual budget of \$1 billion to support the needs of its 800,000 population.

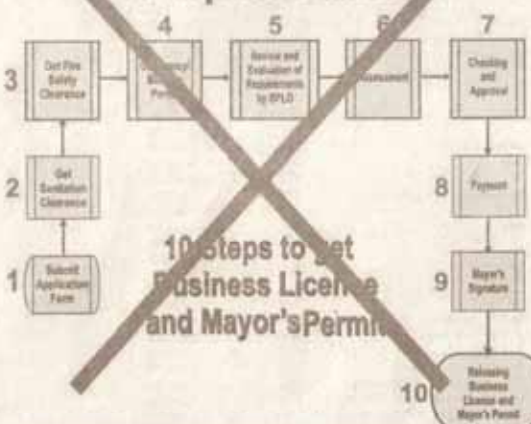

On the basis of the principles of equality and mutual benefits for further development of international relations in various fields like economic cooperation, culture and arts exchange, and citizen exchange activities, the two cities signed a Memorandum of Understanding (MOU).

Among the provisions of the MOU both Cities shall, on the basis of mutual confidence and amity, contribute to their mutual prosperity through a variety of economic cooperation measures including exchanges between enterprises, and promote their exchange and cooperation in diverse fields including culture, the arts, education, science, technology, administration, sports, and youth activities.

Being sister Cities, Valenzuela and Bucheon is expected to support the visit to their city of civil delegations, including business people and culture-related people, every year to continually develop their relationship.

### Procedure Before Streamlining and Simplification

### BIZ BILIS ONE-STOP SHOP PROCESS

4 Easy Steps in Doing BIZ in VC

- 1 Filling-up of (Business) Application Form
- 2 Evaluation / Checking of Documents and Requirements
- 3 Payment of Taxes / Fees
- 4 Releasing of Business License

## Informal Settlers get Certificates of Lot Assignment

Mayor WIN Gatchalian together with Vice President Noli de Castro, Vice Mayor Tony Espiritu, PB Felipe Cortez during the turn-over of Certificates of Lot Assignment to members of SMRPHOA, Inc. in Pinalagad, Malinta.

The City Government turned-over 50 Certificates of Lot Assignment to informal settlers who are members of the Samahang Magkakapitbahay ng Rose Packing Homeowners Association, Inc. (SMRPHOA) in Pinalagad, Malinta.

The turn-over of said lot assignments is a part of the acquisition process of the SMRPHOA of the 4.2 hectare property of the Development Bank of the Philippines (DBP), which has long been occupied by about 600 families through a negotiated sale.

It could be recalled that the area used to be the dumpsite of Metro Manila. From 10 shanties in early 60's, the number of informal settlers mushroomed with the influx of migrants from different provinces.

During the early 1980's, the residents were faced with demolition orders from DBP, which has foreclosed it from a Swiss national, until the Local Government of Valenzuela interceded.

Through the City Government's Informal Loan Assistance Program (ISLAP), the association was given P2million loan assistance that is payable within two (2) years at 6% interest per annum. The loan assistance was used to pay the 10% down payment of the P20million lot of the DBP.

"This showcases an ideal Informal Settler Community in Valenzuela," Mayor WIN said in appreciation of the association's collection efficiency of their monthly amortizations of their ISLAP loan and to the DBP.

"Rest assured of my full support in all the programs of the association that would make your community a healthier, safer and disciplined community," he added.

Likewise, Vice President Noli De Castro urged the members of the association to continue working together, pay their monthly amortizations regularly, and maintain cleanliness, peace and order in the community.

"Mapalad kayo na maging beneficiary ng programang ito dahil madaming empleyado ng gobyerno na mapahanggang ngayon ay wala pa ring sariling bahay at lupa. Kung kaya't hinihikayat ko kayo na pangalagaan ninyo ang pagkakataong ipinagkaloob sa inyo. Magbayad po tayo sa takdang panahon," urged the Vice President.

## LIBRENG OPERASYON PARA SA MGA BINGOT Ngiti Naman Dyan Year 2

Libreng operasyon para sa mga bingot is only one of the many humanitarian service project of the Office of Coun. JUN SANTIAGO. The program has earned so much accolade among his co-Valenzueños not only in District I but also in District II. This worthwhile surgical health service is held annually mostly during the month of October. This on-going project was made possible thru the cooperation with the Operation Smile Phils. Foundation, Citibank Group, and the City Gov't of Makati. Valenzuela patients were gathered, examined and operated by specialists and surgeons. All expenses before, during & after the operation are funded thru the office of Coun. JUN SANTIAGO. Patients were given medicines, services and the much needed care. According to Coun. JUN SANTIAGO, "lives of those who benefitted from the project have changed for the better prospects of a brighter future can be expected".

# VC out of Dengue Outbreak

**"Valenzuela City is out of the dengue outbreak stage."**

**Health Secretary Francisco Duque officially announced during the Summit for Local Chief Executives on Surveillance of, and Response to Emerging Infections at the Astoria Plaza in Ortigas.**

It could be recalled that City Mayor Sherwin Gatchalian declared Valenzuela in a dengue outbreak status in September after the number of dengue cases from January to September escalated to 78% as compared to the same period last year, to increase the consciousness of residents and spur them to religiously clean their surroundings and take on simple measures to keep dengue-causing mosquitoes at bay.

Although the barangays of Marulas and Malinta are still having clustering of cases, the City has been delisted from having an outbreak.

Secretary Duque also thanked Mayor Gatchalian and the people for working together and religiously implementing the 4S strategy of the DOH. However, he said that despite being out of the outbreak status, Valenzuelanos should not be complacent, instead continue to be wary of fighting dengue.

In relation to this, the City Government joined forces with the AFP-NCRCOM in an anti-dengue clean-up and bloodletting activity on October 8 in Barangay Ugong.

"We may be out of the outbreak status, but it is still very important that we keep on encouraging our residents to clean their surroundings. It is not enough that we inform them of the dangers posed by this disease. Educating them is the best way to fight dengue," stressed Mayor Gatchalian.

Furthermore, the Secretary of Health lauded the City Government of Valenzuela for being the first LGU to have formed an Avian Flu Task Force. Its anti-avian flu program is hoped to serve as the model for the other LGUs across the country.

**Anti-Dengue Task Force Emergency Press Conference with DOH Secretary Francisco Duque**

# Drug-free workplace in Valenzuela

## **"Indulge in Production Not in Drug Addiction"**

The biggest private organizations in Valenzuela City and the local government joined forces as they educate the labor sectors for a drug-free workplace in a symposium entitled, "Indulge in Production Not in Drug Addiction," held last October 25, 2006 at the Valenzuela City Auditorium.

Spearheaded by the Rotary Club of Valenzuela District 3800 and organized by the Valenzuela Anti-Drug Abuse Council (VADAC), in coordination with Valenzuela Chamber of Commerce and Industry, Valenzuela Business Club (VBC), Department of Labor and Employment (DOLE), Human Resource and Management Association of Valenzuela Inc. (HUREMAVI), and the Public Employment Service Office (PESO), these illustrious groups were able to gather the busiest people in the business sector to participate in this community-sensitive symposium on

drug addiction that often affects not only private individuals but also their performance at work.

With over 100 participants comprised of company presidents, supervisors, plant managers, personnel managers and employees, the assembly has successfully shared pertinent information on the drug situation in Valenzuela, the evils of illegal drugs based on comprehensive researches, and the latest Department Order 053-33 of DOLE on the implementing rules in the workplace against drug abuse.

The symposium was supplemented by a film showing and was culminated by an open forum. Sev-

eral questions related to peace and order and employment were raised by the audience and were substantially addressed by the panelists composed of Vice Mayor Antonio Espiritu (Vice Chairman and Action Officer, VADAC), Mr. Jerry Lim (President, Rotary Club of Valenzuela District 3800), P/Insp. Rhoderick Juan, Mrs. Rosalinda Telles (Health Education and Promotion, DDB), Mr. Teddy Bayron (OIC, Employment Promotion - DOLE), and Mr. Ramon Ching (President, HUREMAVI), who were the same roster of speakers who shared vital information and inspiration to the participants.

### Valenzuela Cycle Riders SUMMIT 2 WELCOME TO THE SUMMIT 2 Launching of PRO-BIKE

November 5, 2006 marks another day of get together of all the Valenzuela Riders. The Valenzuela Astrodome at G. Lazaro St., in Dalandanan was the place for the VALENZUELA CYCLE RIDERS SUMMIT 2, which highlights the Cycle Safety Consciousness Program initiated by Coun. JUN SANTIAGO(Program Director). This year's Summit is an integral part of the program's objective of instilling cycle safety awareness and Practical & Responsible Ownership of BIKE (PRO Bike). It was attended by more than a thousand Riders from all-over the city.

The success of the project was made possible with the help of the officers and members of the Cycle Riders Association of Valenzuela (Cycle RAV) headed by Kgd. Manny Manguiat (President), Jun Jun San Andres (Internal VP) and Malo Manguiat (External VP). The organizers would like to thank the City Government of Valenzuela thru Mayor Win Gatchalian and the staffs of the office of Coun. Jun Santiago for their full support.

Mayor WIN Gatchalian and Mr. James Doc of the Rotary Club cut the ribbon during the inauguration of the Physical Therapy Satellite Center in Barangay Poblacion on November 12, 2006.
